Beware of Scams, Phishing, and Fraud

Protect sensitive information on your mobile device.

from our friends at KnowBe4

- Clean out your inbox. Delete text messages and emails that contain sensitive information. If hackers steal your mobile device, they won't have access to this information.
- Don't use note-taking applications to store sensitive information. If you need to take pictures of important documents such as your social security card, delete the image immediately after use.
- Set up passwords on your devices. If you have the option, you can also use facial recognition or fingerprint recognition technology for an extra layer of security.
- For more information on what to do if you suspect fraud, don't recognize a charge, or have a dispute, please refer to our [updated Fraud/Dispute Webpage](#).
